PROFESSIONAL SUMMARY

Software Developer with 1.7+ years of experience building scalable, production-grade web applications using React.js, Next.js, TypeScript, and the MERN stack. Skilled in responsive UI development, reusable component architecture, REST API integration, state management, and performance/SEO optimization. Delivered production features across SaaS, EHS, AI and Franchise Management platforms within Agile/Scrum teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js (App Router, Pages Router, SSR, SSG), Responsive Web Design

React Ecosystem: Context API, Zustand, TanStack Query, React Hook Form, Component-Driven Architecture

Backend: Node.js, Express.js, REST API Design, Middleware, Authentication, Authorization, JWT

Database: MongoDB, Mongoose, Schema Design

API & Integration: Axios, JSON, Yup, Stripe, Razorpay, Socket.IO

UI & Styling: Tailwind CSS, Shadcn UI, Radix UI, Framer Motion

Performance & SEO: Code Splitting, Lazy Loading, Rendering Optimization, Image Optimization, Lighthouse, SEO

Tools & Platforms: Git, GitHub Actions, Vite, AWS EC2, PM2, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Web Developer - Vivansh InfoTech

Apr 2025 – Present

- Develop and maintain production web applications using React.js, Next.js, TypeScript, and JavaScript across multiple SaaS products, improving code maintainability and delivery speed.
- Implement application state management using Zustand, React Context, and TanStack Query to streamline data flow across complex, multi-module SaaS products.
- Optimize frontend performance through lazy loading, code splitting, and image optimization, improving page load speed and overall Lighthouse scores.
- Improve SEO through metadata optimization, semantic structure, sitemap, and robots.txt configuration, increasing organic discoverability of product pages.
- Collaborate cross-functionally with backend developers, designers, QA, and product teams to deliver production features within Agile/Scrum sprints.

Web Developer Intern - Vivansh InfoTech

Jan 2025 – Mar 2025

- Developed responsive interfaces using React.js, JavaScript, and Tailwind CSS from Figma designs, ensuring pixel-accurate, cross-device layouts.
- Built reusable React components following component-driven development practices, improving development consistency across the codebase.
- Integrated REST APIs and implemented form validation using Yup, reducing invalid data submissions.
- Collaborated with developers through Git-based workflows across Agile development cycles.

PROJECTS

Capability.work - EHS Training & Work Management Platform

React.js, Next.js, TypeScript, Tailwind CSS, TanStack Query, Zustand, Shadcn UI, Socket.IO

- Developed a multi-tenant EHS SaaS platform supporting training management, incident management, compliance, and workforce operations for enterprise clients.

- Built an AI Assistant using the Claude API with Retrieval-Augmented Generation (RAG) and vector database integration, enabling context-aware EHS guidance for end users.
- Built an AI Report Builder for automated document analysis, generating structured summaries and safety recommendations, reducing manual reporting effort.
- Developed ticket management and Action Plan workflows for tracking support requests, corrective actions, and preventive actions across teams.
- Implemented live human support with AI-to-human handoff, agent availability, and real-time communication using Socket.IO, improving support response continuity.

CHRGD Technologies - Franchise Management SaaS Platform

React.js, TypeScript, Tailwind CSS, Zustand, Stripe, Razorpay, REST APIs

- Developed frontend features for a multi-role SaaS platform supporting admins, franchisors, and franchisees.
- Integrated Stripe and Razorpay payment workflows with REST APIs, enabling reliable financial transaction processing.
- Built role-based access interfaces and operational dashboards, improving visibility into franchise performance data.

KuberGrow - Stock Order & Pricing Management Platform

React.js, TypeScript, Tailwind CSS, TanStack Query, Axios

- Developed modules for bulk stock purchasing, order processing, pricing, and inventory management.
- Implemented high-volume transaction workflows with accurate pricing calculations and consistent data handling.
- Optimized rendering and API data management for real-time stock and financial information, improving UI responsiveness under frequent data updates.

Rembrandt Advantage - Psychological Assessment Platform

React.js, TypeScript, Tailwind CSS, REST APIs

- Developed a dynamic report-template builder for customizable psychological assessment reports.
- Implemented conditional forms and dynamic rendering for API-driven assessment workflows, supporting varied report formats per client.

EDUCATION

B.E. Computer Engineering - Government Engineering College, Rajkot

Gujarat Technological University | CPI: 7.91 / 10.0 | Jun 2021 – May 2025

Class XII (HSC) - Alpha Vidhya Sankul, Junagadh

Gujarat Secondary & Higher Secondary Education Board | 88.30% | Jun 2020 – May 2021
